

The Memory Machine!

I'm sure by now several of you have heard about or seen the memory machine which I placed next to the desk in my office. It may not look much like a memory machine, but it is a memory machine! You may think it looks like a gumball machine with M&M's in it, but it is, in fact, a memory machine!

How does it work? Starting today, I plan to put a memory verse in the bulletin each week. Anyone who wants to quote that verse to me or give evidence that they quoted it to someone responsible, (in the strictest meaning of the word), I will give them a plastic coin that can be placed in the "memory machine." That's all there is to it!

Additional coins can be obtained by teachers who wish to cooperate with me on this plan for memory verses from their classes! Just let me know!

This week's memory verse is:

Psalm 119:103 *How sweet are Your words to my taste! Yes, sweeter than honey to my mouth!*

Love To All!
Andy
