

# Warnings!

There are warnings all around us. The warnings shown in this article are readily identifiable even if they are black and white. We are familiar with them because we want to be protected from what they warn against.

It could be radioactive or it could be a biohazard, or it could just be a “No!” to something that is not allowed for one reason or another. Even though we don’t like to be told “No!” we also know that sometimes it is necessary for our safety!

Are we thankful for the stop signs and warning signs or do we simply get agitated by their appearance? Mostly the problem lies in our rebellious attitudes. We may think that there’s nothing wrong with anything, but how often do we research it to find out why someone has placed a ban on it?

Have you heard of people dying lately because of the medicine that was authorized by the FDA and then restricted? Maybe the FDA is simply an organization of humans, but thankfully they exist! There may be things that other countries try to do and are not restricted by the FDA, but how many deaths occur there?

Listen to this warning from Paul

## **Galatians 5:19-21**

*Now the works of the flesh are evident: sexual immorality, impurity, sensuality, idolatry, sorcery, enmity, strife, jealousy, fits of anger, rivalries, dissensions, divisions, envy, drunkenness, orgies, and things like these. I warn you, as I warned you before, that those who do such things will not inherit the kingdom of God.*

You would think that people would listen to all warnings, but they don’t. Even people in the Lord’s body have a hard time heeding the warnings. Hopefully, some of us will listen and benefit from the warnings!

Will it be you?  
Love to all,  
Andy
